EDUCATION

Diploma
Full-Stack Web Development
Lighthouse Labs
📅 2022 MAY - 2022 AUG
📍 Toronto, ON

HBSc
Biochemistry
Biotechnology Specialization
University of Waterloo
📅 2017 SEP - 2022 APR
📍 Waterloo, ON

SKILLS

Language	Test
JavaScript	Mocha & Chai
HTML	Jest
CSS	Cypress
Ruby	StoryBook

Frameworks	Server
Node.js	Express.js
React.js	
jQuery	
Ruby on Rails	

Database
SQL (PostgreSQL)

SUMMARY

Pragmatic, task-oriented, innovative web development graduate with competent skills in designing user interfaces, testing codes, and constructing databases and servers. Equipped with talented skills in guiding all operations related to research analysis and reporting across technologies in both the field of science and programming.

WORK EXPERIENCE

Quality Control Chemist

Apotex Inc.

📅 2021 JAN - 2021 AUG   📍 North York, ON

- Analyzed 100+ drug samples and documented all data obtained from testing to completed daily report summaries.
- Collaborated with internal chemists to ensure compliance with good manufacturing practices, and good laboratory practices, as well as the Ontario Occupational Health and Safety Act.

Biomaterial Laboratory Research Assistant

The Hong Kong Polytechnic University

📅 2019 JAN - 2019 APR   📍 Hong Kong, China

- Conducted 20+ material researches and performed analytical experiments to innovate current medical devices designs to improve product therapeutic properties and biocompatibility.
- Facilitated the progression of 3+ field-related projects by developing and performing complex cell culturing and biomaterial synthesis procedures.

PROJECTS

Pinnet

An address notebook. Pinnet offers users the ability to pin and save their favorite place to eat or hangout by creating their own shareable list.

Front-end:	HTML / SCSS / EJS
Back-end:	Node / Express / PostgreSQL
Test:	Mocha & Chai
Github:	github.com/diavolosz/Lighthouse-MT-wikiMaps

Scheduler

An appointment scheduler. Scheduler allows users to book interviews appointments with a list of interviewers available on the selected day.

Front-end:	HTML / SCSS / React
Back-end:	Node / Express / PostgreSQL
Test:	Jest / StoryBook / Cypress
Github:	github.com/diavolosz/scheduler-react
